Experience

National Informatics Centre (NIC)

Apr 2025 – Present

Software Engineering Intern

New Delhi, India

- Developed scalable **web applications** using **React.js**, **Node.js**, and **Express**, improving internal data access and collaboration efficiency by **35%**.
- Created a **conversational database assistant** inspired by **DB-GPT**, allowing users to query and visualize data from **PostgreSQL/MySQL** via natural language. Utilized **React.js**, **Tailwind CSS**, **Node.js**, **Prisma**, **FastAPI**, and **Hugging Face models**, reaching **85% query accuracy**.
- Integrated **data processing pipelines** with **NiFi** and **Spark** to handle **20+ GB/day**, ensuring efficient backend data availability for frontend analytics dashboards.
- Automated setup workflows using **Bash scripts**, cutting environment setup time by **45%**.

Projects

ChatR — Real-Time Communication Platform

Aug 2025 – Sep 2025

React.js, Express.js, Tailwind CSS, MongoDB, Stream SDK, Zustand

- Developed a high-performance chat app with real-time messaging, reactions, and presence tracking, achieving **sub-300ms latency**.
- Integrated **1-on-1 & group video calling** with screen sharing, enabling seamless low-latency communication.
- Deployed full-stack app on **Render**; optimized performance for **200+ messages/day**. **Live Demo**.

NetworQ

Aug 2025 – Sep 2025

Next.js, TypeScript, Tailwind CSS, Clerk, Prisma ORM, PostgreSQL

- Launched a full-featured social app with posts, comments, likes & follows, supporting **75+ concurrent users**.
- Enhanced load speed by **30%** using **Next.js SSR** and **Prisma** query optimization.
- Integrated user auth with **Clerk** and maintained **99.9% uptime** across **90+ test accounts**. **Live Demo**.

Depin Uptime

Mar 2025 – Apr 2025

Next.js, TypeScript, Tailwind CSS, WebSocket, Prisma ORM

- Built a real-time monitoring dashboard tracking **70+ nodes**, reducing latency to **<1s** with **WebSockets**.
- Optimized backend queries and front-end rendering, improving page load speed by **25%**.
- **Source Code**

Technical Skills

- **Languages:** JavaScript, TypeScript, Python, HTML/CSS, C++
- **Frameworks & Libraries:** React.js, Next.js, Node.js, Express.js, Tailwind CSS, Prisma ORM, FastAPI
- **Databases:** PostgreSQL, MongoDB
- **Tools:** Git, Linux, VSCode, Vercel, Bash
- **Concepts:** RESTful APIs, Authentication & Authorization, State Management, Responsive Design, Data Structures & Algorithms, Scalability & Optimization

Education

Indian Institute of Technology Madras (Online Degree Programme)

Sep 2022 – Present

B.Sc. in Data Science and Computer Programming

Tamil Nadu, India

Gautam Buddha University

Jul 2020 – Jun 2023

B.A. in Economics

Uttar Pradesh, India

Certifications

100 Days of Code: The Complete Python Pro Bootcamp

Jul 2025

Certificate Link

0-100 Full Stack Web Development Course

Aug 2024
